SUMMARY

Public Health student with quantitative training in epidemiology and statistical analysis, applying evidence-based methods to evaluate healthcare systems and inform strategic decision-making. Brings global clinical exposure and firsthand insight to real-world health delivery, contributing analytical and systems-level thinking to healthcare challenges.

EDUCATION

Rutgers University, School of Arts & Sciences – New Brunswick, NJ *Expected May 2027*

B.S. in Public Health; Minors in Biological Sciences & Business Administration *Major GPA: 3.7/4.0*

ANALYTICAL EXPERIENCE

- Applied SPSS to conduct statistical hypothesis testing and interpret relationships between health variables
- Analyzed epidemiologic patterns of dengue virus transmission to evaluate population-level intervention strategies
- Synthesized peer-reviewed evidence on neural tube defect risk factors to assess prevention implications

PROFESSIONAL EXPERIENCE

LabCorp – Clinical Diagnostics Laboratory **Princeton, NJ**

Phlebotomy Technician *December 2025 – January 2026*

- Performed 300+ venipunctures in a high-volume outpatient setting, supporting efficient patient flow and standardized protocols
- Collected and documented biometric data and vital metrics to ensure accuracy and compliance with reporting standards
- Processed and tracked 450+ biological specimens using laboratory software systems to ensure data integrity and timely processing
- Maintained strict quality and infection control standards to preserve patient safety, specimen accuracy, and precision of operations

Robert Wood Johnson Hospital – Pediatric Emergency Department **New Brunswick, NJ**

Volunteer *March 2024 – Present*

- Supported 10–15 pediatric patients per shift in a fast-paced department, gaining exposure to multidisciplinary clinical workflows and patient throughput operations
- Assisted with room turnover, supply coordination, and interdepartmental transport logistics to support efficiency in a high-acuity emergency setting

Cygnet Hospital – Men's Psychiatric Facility **Churchill, U.K.**

Clinical Intern *July 2024 – August 2024*

- Reviewed patient documentation to support risk assessment and care planning processes in an inpatient behavioral health setting
- Gained exposure to the U.K.'s National Health Service model, observing system-level approaches to mental health treatment coordination and resource allocation
- Evaluated clinical workflows within a publicly funded healthcare system, developing comparative insight into international care models

V.S. Hospital – OB/GYN **Chennai, India**

Clinical Intern *May 2024 – July 2024*

- Documented 2–3 prenatal consultations daily, tracking patient histories and treatment recommendations to support continuity of care and provider decision-making in a private practice serving underserved communities
- Evaluated individualized maternal care strategies within a resource-constrained setting, gaining insight into healthcare access disparities in India's hybrid public-private system
- Interpreted ultrasound findings alongside supervising physician, integrating diagnostic data into treatment planning

LEADERSHIP/ON-CAMPUS INVOLVEMENT

Alpha Omega Epsilon – Professional STEM Sorority **New Brunswick, NJ**

Public Relations Chair *May 2024 – January 2026*

- Directed recruitment campaigns resulting in a 50% increase in membership
- Coordinated sponsorships (i.e. Poppi, Tastelli, etc.) and fundraising initiatives, generating $1,500+ in support of pediatric cancer programs through the Embrace Kids Foundation

The Shop by R&S **Princeton, NJ**

Co-Founder *June 2020 – June 2023*

- Founded and managed a nonprofit that generated $2,000 to support global health efforts
- Launched the Beads of Sonder program in partnership with the Children's Home Society of NJ to deliver health education workshops for underserved youth

SKILLS & PROFICIENCIES

Healthcare Operations: Clinical workflow support, patient intake coordination, laboratory information systems, quality and infection control compliance

Data & Reporting: Excel (data organization), SPSS (statistical interpretation), clinical documentation accuracy

Leadership & Coordination: Stakeholder communication, partnership development, recruitment and fundraising initiatives

Languages & Certifications: English (fluent), Tamil (fluent), Spanish (proficient); Phlebotomy Technician Certificate; Basic Life Support (AHA)
